

3-4 YEAR OLDS, NURSERY

THE PRESCHOOL
by THE INTELLIGENT GROUP

About

The curriculum encourages involvement in thorough and immersive play-based learning spanning various areas. It starts with establishing routines and fostering a strong classroom community, then gradually delves into more complex concepts as the year progresses.

Language

In the Nursery class, we believe in fostering multi-sensorial and holistic learning experiences. By incorporating hands-on activities, visual aids, music, movement, and tactile experiences into our curriculum, we ensure that every child engages with language in a way that suits their unique learning style. This approach not only makes learning more enjoyable and memorable but also ensures a deeper understanding and retention of language concepts.
