

# 4-5 YEAR OLDS, PRE-KINDERGARTEN

THE PRESCHOOL  
by THE INTELLIGENT GROUP

## About

The curriculum nurtures inquiry, language, and problem-solving skills by organizing the classroom environment to encourage exploration and discovery. Interactions in the classroom are supportive and stimulating, fostering curiosity and critical thinking. Purposeful play is integrated into activities, allowing children to learn through hands-on experiences.

## Math

The math program for the Pre-Kindergarten class is fun and interactive, it introduces children to basic and complex math concepts using colorful tools and engaging activities. It helps children learn numbers, shapes, patterns and counting through playful exploration, repetition, and real-life examples, setting a strong foundation for future math skills.

Quantities	Measurements	Addition
Subtraction	Graphing	Patterning
Size	Skip counting	Even numbers
Odd numbers	Time	Writing numbers

## Language

The language program uses an interactive approach designed to introduce young learners to foundational linguistic concepts. Through engaging activities, songs and games, children explore the building blocks of language, including letters, sounds, and extensive vocabulary. Emphasizing hands-on experiences, the language curriculum fosters early literacy skills while nurturing a love for communication and expression.
