

OUR CURRICULUM

THE PRESCHOOL
by THE INTELLIGENT GROUP

LANGUAGE

The Language Program for our Toddler Class (18–24 months) uses songs, stories, rhymes, and play-based activities to build vocabulary, listening skills, and early communication.

Children gain confidence expressing themselves while developing a strong foundation for future language and literacy.

TODDLER CLASS 18-24 MONTHS OLD

The Toddler curriculum provides a playful and engaging environment where children explore themselves, colours, animals, building, movement and growth. Through hands-on activities, sensory play, songs, movement and simple everyday experiences, children develop early language, motor, social and problem-solving skills.

1. Our Classroom
2. Self
3. Transportation & Vehicles
4. Animals

5. Building
6. Moving
7. The Body
8. Growing

9. Our World
10. Leisure
11. Sports & Movement
12. Fun & Games

MATHS

Children begin to recognise and explore colours, shapes, matching, sorting, and size comparisons using hands-on activities and everyday objects.
